## Flexibility and Durability

Waterproof abrasive paper

## BONEGA ボネーガ

# Flexibility gives it "Strength"

Reduce the stress of sanding with this soft waterproof abrasive paper

Size 230mm 280mm 9"× 11"

It can be used for everything from base to finishing sanding of automotive repair paint, metal products, and woodwork products, etc.

BONEGA's soft base material conforms well to curved surfaces and does not crack at the folds, preventing deep scratches.

Comparison of folded states

### No back slipping\* even when used folded. \* Back slipping: When the backing of abrasive paper slips during sanding,

leading to poor sanding performance.

Superior cutting performance and durability enhancing work efficiency.
